IMPORTANT:

Grant MacEwan University will require proof of vaccination or negative test for anyone 12 years and older entering the building for the December 18th Workshop.

QR Code Proof of Vaccination Required

Starting November 15, proof of vaccination using an Alberta COVID-19 vaccine record QR code will be the only valid proof of vaccination to enter Sport and Wellness. Download your QR code from the Government of Alberta website. We will scan your QR code upon entering the building. You will also be required to present a valid ID to verify your identity. If the record is valid, the app will display a green checkmark and the person's legal name and date of birth. It does not access or store any other personal information.

Valid proof of vaccination

Alberta vaccine record with QR code (paper or digital) is now the only valid Alberta-issued proof of vaccination accepted by operators participating in REP.

Other accepted forms of proof of vaccination include:

- Other provincial vaccine records
- First Nation vaccine records
- ArriveCan app and valid international travel identity document
- Canadian Armed Forces vaccine records
- U.S. Military proof of vaccination and ID card

Valid identification that matches the vaccine record is also required for adults 18 and over.

Proof of Negative Test

If you are unable to submit vaccination verification or cannot be vaccinated due to medical or protected grounds, you will be required to provide proof of a negative COVID-19 test within the 72 hours prior to your visit to campus.

Get more information about the new Alberta COVID record from their website.

Masks and Physical Distancing

Masks are required in all Sport and Wellness facilities, except when engaging in water activities or physical exercise. Physical distancing is recommended but not mandatory. The exception to this will be in our cardio areas and in-person registered programs where distancing requirements will remain in place.
